**DETAILED ACTION**

***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

2. In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

3. Group I, claim(s) 9 and 11-16, drawn to a prime mover control device with a rotation speed control device that controls a prime mover rotation speed to match with a maximum value between a first set rotation speed and a second set rotation speed when a selection member selects a first mode.

4. Group II, claim(s) 10 and 17-21, drawn to a prime mover control device with a rotation speed control device that controls a prime mover rotation speed to match with a first set rotation speed when a selection member selects a first mode.

5. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the inventions are patentably distinct over one another and do not constitute a single inventive concept because the inventions as claimed are not obvious variants and the inventions as claimed can have a materially different design, mode of operation, function and effect.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to BRIDGET AVERY whose telephone number is (571)272-6691. The examiner can normally be reached on 7:00AM-5:30PM Monday-Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Christopher Ellis can be reached on 571-272-6914. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
